EDUCATION

- Dartmouth College, Hanover, NH
PhD., *Experimental Social Psychology*, November, 2002.
- University of Virginia, Charlottesville, VA
B.A., *Psychology*, May 1994.

ACADEMIC POSITIONS

- The Pennsylvania State University, Professor of Psychology, 2018-present
- The Pennsylvania State University, Associate Professor of Psychology, 2012-2018
- Dartmouth College, Visiting Associate Professor of Psychology, 2013-2014
- The Pennsylvania State University, Assistant Professor of Psychology, 2006-2012
- Harvard & Tufts Universities, NRSA Post-Doctoral Research Fellow, 2002-2006
- University of Virginia, Post-baccalaureate Research Fellow, 1996-1998

FELLOWSHIPS AND GRANTS

- *National Institute of Mental Health* (Award #1 R01 MH101194-01A1). Neurodynamics of compound threat cue perception. Principal Investigator of subcontract (MGH PI: Kveraga). 2014-2020.
- *National Science Foundation* (SoCS: Award #1110970). Studying the computability of emotions by harnessing massive data sets. Co-Principal Investigator (PI: Wang), 2011-2017.
- *National Institute of Mental Health* (Award #1 R21 MH099617-01). Prenatal androgen effects on sex-related neural processing of reward and threat. Co-Investigator (PI: Berenbaum), 2013-2015.

- *National Institute of Aging* (New Investigator, Award #1R01AG035028-01). A wrinkle in time: The perception of expressions in the elderly. Principal Investigator (Multiple PI), 2011-2015.
- *National Science Foundation Grant* (Award #0544533). The functional equivalence of morphological and expressive cues of dominance and affiliation. Co-Principal Investigator (PI: Kleck), 2006-2010.
- *National Institute of Mental Health, National Research Service Award, Post-Doctoral Fellowship*, (Award #1F32MH067294-01). Effect of perceived gaze direction on emotion Processing. Principal Investigator, 2002-2005.
- *National Science Foundation, Doctoral Dissertation Improvement Grant* (Award #0121947). Gaze direction and facial affect: An fMRI investigation. Principal Investigator, 2001-2002.

HONORS AND AWARDS

- *Professor of the Year, Psi Chi National Honors Society*, Department of Psychology, Penn State University, 2019
- *Fellow*, Association for Psychological Science (APS), 2017
- *Roy C. Buck Award* for best social science paper in the College of Liberal Arts authored by a pretenure faculty member, The Pennsylvania State University, 2012
- *Fellow, Society of Experimental Social Psychology* (SESP), 2010
- *SAGE Young Scholar Award*, Foundation for Social and Personality Psychology and SAGE Publications, 2009
- *Professor of the Year, Psi Chi National Honors Society*, Department of Psychology, Penn State University, 2008
- *Derek Bok Certificate of Distinction for Teaching*, Department of Psychology, Harvard University, 2004
- *James McKeen Cattell Dissertation Award, Finalist & Honorable Mention*, New York Academy of Sciences, 2003
- *Marie Center Award for Excellence in Graduate Research*, Department of Psychological & Brain Sciences, Dartmouth College, 2002
- *Presidential Fellowship*, Department of Psychological & Brain Sciences, Dartmouth College, 1998.
- *Graduate Research Fellowship, Honorable Mention*, National Science Foundation, 1998
- *Graduate of High Distinction*, School of Arts & Sciences, University of Virginia, 1994
- *Annual Undergraduate Research Award*, Arts & Sciences, University of Virginia, 1993

HONORS AND AWARDS (*GRAD STUDENTS AND POSTDOCS*)

- Albohn, D.N., Liberal Arts *Welch/Nagle Family Graduate Fellowship*, The Pennsylvania State University, College of Liberal Arts, Spring 2019
- Steiner, T.G., *Graduate Research Fellowship*, National Science Foundation, 2015-2018
- Cárdenas, R.A., *SBE Minority Postdoctoral Research Fellowship*, National Science Foundation, 2012-2015.
- Garrido, C.O., *Research and Graduate Studies Office (RGSO) Dissertation Grant*, The Pennsylvania State University, 2015
- Nelson, A.J., *Research and Graduate Studies Office (RGSO) Dissertation Grant*, The Pennsylvania State University, 2014.
- Garrido, C.O., *Postdoctoral Fellowship, Honorable Mention*, Ford Foundation, 2014.
- Garrido, C.O., *Predoctoral Fellowship, Finalist & Honorable Mention*, Ford Foundation, 2013.
- Beeney, J.E., *Raymond Lombra Graduate Student Award for Excellence in Research in the Social Sciences*, The Pennsylvania State University, College of Liberal Arts, 2012, based on work published in *Social Neuroscience*, 2011 (*Volume 6*, 369-376).
- Franklin, R.G., Jr. & Beeney, J.E., *Outstanding Publication by a Graduate Student Award*, The Pennsylvania State University, College of Liberal Arts, 2011.
- Franklin, R. G., Jr., *University-wide Alumni Association Dissertation Award*, The Pennsylvania State University, 2011.
- Nelson, A.J., *Graduate Research Fellowship, Honorable Mention*, National Science Foundation, 2008, 2009.

COURSES TAUGHT

Social Affective Neuroscience (Graduate): Department of Psychology, The Pennsylvania State University, Spring, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2016.

Description: Social affective neuroscience bridges the areas of social psychology, emotion, cognition, and neuroscience. Insights are additionally drawn from work more broadly interdisciplinary in which these parent disciplines naturally merge, including cultural anthropology, evolutionary psychology, ethology, developmental psychology, and comparative psychology. The goal of this course is to appeal to both the student who wants to be a consumer of the neuroscience literature in order to apply it to their subject area without necessarily conducting it, as well as to the student who wants to study neuroscience while drawing from related disciplines.

Introduction to Social Psychology (Undergraduate): Department of Psychology, The Pennsylvania State University. Spring 2013.

Description: As humans, we are inherently communal, reliant in almost every respect on other humans for our survival. Yet, we often overlook the very powerful influence that social situations can play in guiding our feelings, thoughts, and behaviors. Social Psychology seeks "to understand and explain how the thought, feeling and behavior of individuals are influenced by the actual, imagined or implied presence of other human beings" (Allport, 1985). In this course, I explore the complex social chess we engage in everyday with one another, starting with our own sense of self-identity, then moving onto how we perceive and respond to others. I will also explore generators of first impressions and factors that govern interpersonal attraction and aversion, altruism and aggression. I cover all these topics starting from a scientific perspective with an eye for real world (and thus personal) implications.

The Psychology of Human Emotion (Undergraduate): Department of Psychology, The Pennsylvania State University, Spring, 2006; Fall, 2006; Fall, 2007; Spring, 2009; Spring 2010, Spring 2012, Spring 2013, Fall 2014, Spring 2016, Spring 2017, Spring 2018.

Description: There is hardly a waking moment during which any of us could truly be described as completely devoid of emotion. Throughout this course we explore both historical and contemporary perspectives on emotion, first introducing four classic approaches to understanding emotion, then examining empirical work on the expression of emotion, the neural architecture underlying emotion, individual differences in emotional experience and perception, and emotion management in everyday life.

Social Vision (Undergraduate): Department of Psychology, The Pennsylvania State University, Fall, 2007, Spring 2011, Fall 2011.

Description: Human beings possess an elaborate visual system of nonverbal communication and perception. This course examines four themes related to this extraordinary ability by examining research positioned at the social psychological and visual science interface including how: 1) vision plays a powerful role in moderating social interaction and perception; 2) visual cues serve as the perceptual determinants of social group category and

stereotype activation; 3) social factors play an important role in moderating basic visual processing; 4) visual and social perception are in some cases functionally equivalent to one another, where the study of one is essentially the study of the other.

Good Science Good Practice (Graduate: Professional Development): Department of Psychology, Harvard University, Fall, 2003 & Spring, 2004.

Description: This course was designed to offer an informal forum for graduate students to explore issues relevant to their career development. Topics included: How to seek and obtain funding, authorship dilemmas, and the job search. In addition, a co-instructor and I organized a speaker series entitled “From Data to Theory and Back Again,” where research psychologists shared their perspectives and personal stories on how they developed theories throughout their careers.

Advanced Social Psychology at Face Value (Undergraduate): Department of Psychology, Tufts University, Fall, 2003

Description: The human face is arguably the most richly informative and pervasive social stimulus we are likely to encounter. Research on the human face therefore offered a central theme from which to explore topics of broad relevance to social psychological inquiry. Topics included sex and racial stereotyping, social ecology, attraction, Theory of Mind, social contagion, and emotion theory.

The Laughing Animal (Undergraduate and graduate): Department of Psychology, Tufts University, Summer 2004; 2005; The Pennsylvania State University, Spring, 2007, Fall 2012, Spring 2015, Spring 2016, Fall 2017, Spring 2018.

Description: Humor and laughter are vital to human functioning, promoting physical and emotional well-being, social harmony, learning, and creativity. This course was designed to explore the origins of this uniquely human phenomenon from a phylogenetic and ontogenetic perspective, and to apply insights gained to broader research themes such as creativity, attribution theories, and emotion theories.
